BRAND BOOK

People talk about branding and mostly refer to logos, colors and taglines.

BUT IT'S SO MUCH MORE

- Our brand is a reflection of everything we do and say, the environment we create for our buyers, the services we offer our sellers, the way we answer every customer service call, the tone of voice we take on social media, how we solve problems, and the way we react in tough situations.
- Our brand is also the emotional connection we build with our community of buyers and sellers, as well as with our team.

THIS BRAND BOOK WAS CREATED WITH THAT IN MIND

- This book highlights a few of the key components important to the Shopee brand: our **purpose**, our **positioning** and our **personality**. You'll also find our values and visual identity guidelines for mobile, web, print and other media.
- Help Shopee continue building its brand and championing its values by following the guidelines in this book.

WHAT IS PURPOSE?

Our purpose is how we want to change the world for the better. It is our long-term vision, which lasts a decade - not one year, nor forever.

OUR PURPOSE

For Shopee, the world will be a better place if buyers and sellers could connect in a community that delivered the most **fun**, **seamless** and **cost-effective** shopping experience of them all.

WHAT IS POSITIONING?

No business can thrive and grow in the atmosphere of its purpose alone. That is why we need positioning. Our positioning is what makes us unique and different relative to what's out there.

Contrary to purpose, positioning holds true for a shorter time period.

OUR POSITIONING

For a connected generation of shoppers who like to buy & sell online, Shopee is a social shopping platform, which delivers a seamless end-to-end experience at the best possible prices.

Shopee = Seamless

WHAT IS PERSONALITY?

Our personality defines what we are like. How we talk. How we behave. How we react to any situation. It is less about what we say and more about how we say it.

To define our personality, imagine you were to meet Shopee at a party. How would you describe us?

Shopee is an **approachable**, **honest** and **fun** person, **youthfully well-dressed** with a dash of style but never flashy...

The type of person who you would see at the party **chatting to everyone**, introducing different people to each other and carrying a **smile** all the time...

Always a **safe pair of hands** and **resourceful**, this is the person who will always make sure you have entered your home safely when dropping you off at the end of the night.

OUR VALUES

As a part of Garena, Shopee subscribes to the same core values as our parent company.

WE SERVE

- Our customers are the sole arbiter of the value of our products and services. We strive to **meet unmet needs** and **serve the underserved**.

WE ADAPT

- Rapid change is the only constant in the digital age of ours. We **embrace change**, celebrate it and always strive to be a thought leader that influences it.

WE COMMIT

- Our work is our commitment. We commit to our **values**, **institution**, **customers** and **partners**. We commit to each other. Above all, we commit to doing the best we can and being the best we can.

WE STAY HUMBLE

- We have traveled a long way from our humble beginning and yet, **we never lose our humility** in our continual quest for greater heights.

WE RUN

- We are in a constant race to success while grappling with rapidly shifting forces. We move **faster**, **better** and with **more urgency** every day.

IN ADDITION TO GARENA'S CORE VALUES, WE ALSO BELIEVE IN THE FOLLOWING

1 WE EMPOWER OTHERS

We strive to unleash the potential of our customers, sellers and team members.

2 WE ARE OUR USERS

There is no “us” and “them”. We live and experience everything as our users do in order to deliver the most seamless experience.

3 WE DON'T PLAY GAMES

We deal with everyone and everything in an honest, direct and transparent way.

4 WE ARE FRUGAL

We spend money as if it were our own. If we do more with less, we can offer our users the best value.

5 WE ALWAYS FIND A WAY

We are resourceful, help others, tackle hard problems and never give up.

OUR CREATIVE GUIDE

Our creative guide shows the ideal way to use our logo in various circumstances and also suggests the typography and colour that should be used with our brand to ensure maximum consistency throughout our collaterals.

Our logo is available in three different versions: **vertical**, **horizontal** and **logomark**. These versions are fixed, so please do not tweak or recreate the logo from its core elements.

The logo is available in four different versions, **vertical**, **horizontal 1**, **horizontal 2** and **logomark**. These versions are fixed, so please do not tweak or recreate the logo from its core elements.

Avenir Next is a versatile sans serif family, with vertical strokes that are thicker than the horizontals, an “o” that is not a perfect circle, and shortened ascenders. These nuances aid in legibility and give Avenir Next a harmonious and sensible appearance for both texts and headlines.

OUR COLOURS

Our colour palette is defined by 1 core colour and 2 supporting colours.

Orange is our primary brand colour. It is used sparingly within the application to allow content to be the focus, and more freely outside of the application for other communications. The tints are also used when the primary colour is overwhelming the communication piece.

Black is used primarily in body copy and **Green** can be used subtly as a way to enhance visual interest to a visual.
